In the world's largest all-season mountain playground.

WHY CHOOSE WHISTLER ADVENTURE SCHOOL?

- Small & interactive classes led by industry professionals
- Non-traditional, hands-on learning experience
- Study and work - flexible schedule
- Choose from 1 year or 7 month summer or winter diploma programs
- Individual Courses also available
- Accredited by the Government of BC Private Training Institutes Branch (BTIB), formerly PTIB
- Education Quality Assurance Designation

About Whistler

Whistler is the world's most iconic year round mountain resort town, located just 1.5 hours north of Vancouver.. Attracting passionate outdoor enthusiasts from around the world, this vibrant village sits at the base of North America's largest ski resort and the number one bike park in the world. Come live, learn and play amongst the best in the outdoor industry.

Study & Work

Canadian students are eligible to use RESP contributions and will be issues a T2022 income tax receipt.

International students can work while studying and gain valuable work experience. Students will apply for a Canadian Study Permit with work allowance for 27 weeks or 12 months.

Study & Play

Canadian students taking programs or individual courses with no co-op requirement are not required to work while studying, but may do so if they choose.

International students wishing to come for under 6 months can enter Canada as a tourist (with a tourist visa where required) and take individual courses - no study permit required. More time to play, not eligible for work in Canada.

Co-op Work Experience

- Gain work experience with the industry's best
- Choose from plentiful job opportunities
- Earn a living while studying

Our Faculty

- Leaders in their industry
- Professionals and certified guides
- Passionate and knowledgeable
- Connected to local industry and organizations

SKI/SNOWBOARD GUIDE TRAINING

27
WEEK
DURATION

Enrolment Month: November

One of the few courses in North America and Canada to teach a true backcountry ski guide training program. Throughout this 27 week winter program, students have the opportunity to develop their backcountry skill set.

An on-snow and hands-on program that teaches students in depth backcountry skills including backcountry route planning, crevasse rescue, avalanche safety training and guiding amongst many other exciting elements. Throughout the program, students train in alpine terrain, building a resume of trips and backcountry experiences that also supports preparing for an ACMG/IFMGA Ski Guide level, if chosen.

Program Outcomes

- Backcountry ski/snowboard touring and high elevation glacier touring
- Steep skiing and glade steep skiing
- Route planning, navigation and forecasting for backcountry guiding trips
- Relevant rope work and climbing skills
- Crevasse rescue with teams and self-rescue
- Rappelling from rock horn anchors into couloir
- Winter camping skills
- Risk Management protocols and safety for clients
- Knowledge and certification in Wilderness of First Aid

Courses	Hours
Ski/Snowboard Guide Level 1	22.5
